Patent 5,880,956) does not disclose or suggest, alone or in combination, a display for graphically displaying to the user the simulated effect of the instruction in form of a two-dimensional or three-dimensional representation by highlighting the collision on the display and displaying in ASCII code the instruction causing the collision, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
